Subject: Re: [External] Re: FILED: DEC's Motion to Compel - Docket 2020-218-E (Kadoshnikov v. DEC)
Date: Monday, April 12, 2021 7:48:05 AM

Thank you Mr Butler, Duke Energy's response should not even be considered as every business deal starts with a contract, with terms, and if those terms are not followed, courts hear the case thereafter. If it please the court this case can be over this Friday, and the fines start on the 18th.

Kindly, Alex.

Good morning Mr. Butler,

It's a good day in South Carolina. You have indicated that you are the hearing Examiner in the case to bring justice to this issue. I totally agree with you that this will be better for the living men and women of South Carolina as well as for the Commission. So I will keep this very short as I value your time, patience, understanding, and above all, that you have chosen to hear this case.

As a reminder, the Public Service Commission is a trust and I am a beneficiary. As such, I hereby beseech you to dutifully settle matters. I remind the Commission that Mr. Wellborn demands that I answer his questions, yet he has failed to answer the requested sixty-six questions that were provided to him. Time is of the essence as pertinent information regarding Duke's equipment has been found to be hazardous. Mr. Wellborn and Duke Energy should, by law, be accountable for their actions. If proof of

my acceptance of the smart meter cannot be provided, then they are guilty under law.

Thank you Commissioners for taking an oath to uphold the Constitution of the United States and for protecting the rights of all living men and women. I am also grateful that the Courts take Contract Law very seriously. It is imperative to my, and my family's, health that this matter be decided lawfully and expediently. If the company has an agreement Contract signed by me or my spouse, it should be furnished immediately. It does not exist. Therefore, the company illegally placed a radiation-emitting meter which can be deadly at most, and the cause the sickening of the mind and body, at least.

To Duke Energy, by accepting this email you have held yourself liable to this agreement with a living man and if a smart meter is on my residence after April 17th, each day afterward you have agreed to this binding agreement to pay out a million dollars for each day following the 17th.18th, 19th, and 20th and as follows, a million dollars a day.

Duke Energy: In my opinion, without the requested (consents) signed contract, it is apparent that the smart meter was installed illegally by a corporate representative of Duke Energy. As such, the employees of Duke Energy were trespassing and committing fraud in not having permission from myself and my spouse. This smart meter is a weapon of destruction of human life, and worse. The meter is to be removed by April 17th, should Duke Energy not provide such permission via a signed contract. Those who have perpetuated this situation are to be held accountable for a crime committed. We, the People, will not just bow down to tyranny, which seems to be the issue with the warp speed, no permission, use of weaponry on citizen's personal/real property.

In addition to the information already requested, please furnish my signature on any and every Duke Energy contract agreement for the installation of a smart meter on my home and a first hand witness to the evidence of a contract. I have received nothing by mail nor electronically indicating any terms for payment nor use of a smart meter. My spouse has also signed no contract to allow a smart meter on the property. No terms or information have been furnished for such action.

Thank you Commissioner Williams, Commissioner Belser, Commissioner Caston, Commissioner Carolee, Commissioner Ervin, Commissioner Thomas, and Commissioner Powers and finally thank you Jocelyn Boyd Chief Clerk / Executive Director, may God Bless America.

With deep respect and appreciation for what you do for this country,

Alex

P.S. Please confirm Mr. Butler that you have received my email, kindly, Alex.
